

Playground

He's trippin and hopin', as free as a robin
Dawn he drowns, while others go jobin'

A batman shoppin', critics won't chop him
Coz he's in the playground, no one can stop him

He won't hit, just doin' his shit
Doesn't give a toss, not even a slice of it

It runs in his blood, printed on mud
Dragon's on the shift, as his burns the spliff

Put him in a locker ? turn on the soccer
Cold blood sucker, pick on someone other

Coz when he wakes up, you'll bend down
But he so High, won't hear him reply

Go funk yourself
I'll put ya ears in a coffin on my shelf
Go funk yourself
I'll keep my tears and my tears for myself
Go funk yourself
I'll put ya ears in a coffin on my shelf
Go funk yourself
I'll put my fingers in the socket by myself

Believe

Indian say boudha
Arab say allah
Rasta say JAH
But we all can live together !

Moses said teacher
Jesus said suffer
Muhammad said leader
But we all can live together
We all can live together

So tell me why why ?
We can't live together, we can't trip together, smoke some weed together.
Tell me why why ?
We can't live together, see we can trip together, drink a beer together.

Flox say nada
Jahmai say faya
The choice is yours my brother
But we all can live together

Flox say nada
Jahmai say faya
Man is a believer
Can't live without a leader
No no no !
But we all can live together

Individuality

Won't find no hidden explanation,
just troubled for our population.
Race, rat race and blind conquest,
leading to upheaval in the NSE and rest.
Nothing new here I know that it's clear to me,
but there's that question to see or not to see.
And when U try to focus everything is going blur,
Listen to this eye wash or I'll spit gum in ya fur.

Me so sorry, I got a little cross,
Won't shout you don't need a hearing loss.
I feel so useless, I sometimes wanna cry,
Often think for my girl in the sky.
High above all this nonsense for the time,
Being, is already something, I can die,
Peacefully, fuck I did it once again,
Thinking for myself I can't control this pen.

Can't be more clear,
No wanna hear you cheer here.
Just wanna make U think instead,
We are all connected.
So come along and sing with I,
We're gonna chant this on the fly.
Gonna take our chance,
If I can make U see that I need U,
And you need me...

Individuality, is killing you and me.

All I need

I got my weed, I got my TV, car, job and read,
Football and PC magazines.
I got a wife that cooks me beans.
On toast is where ya gonna find the green,
Side of me so please hear me,
This is all I need.

I got my dough, not much but enough for Rapido,
Much more than that poor sod washing my window,
For free, too and fro, for free... too and fro,
This is all I need.

This is all I need

I got my god, can't say that I'm addicted to the squad,
But they came in handy for the bells,
Wedding, wed and were done, amen and a picture frame.
Wouldn't look the same if it weren't in his name.
This is all I need.

I got my stew...pidity is in it but no make me blue.
Download all night you think I rob ?
You see I don't consider art as a job, and even if it was,
From where I sit, I can't see shit,
This is all I need.

This is all you need

Self Propelled

Do do do the locomotion yes me do do do,
Do do do the locomotion with me.

Coz I've been taking this special potion, so wake up bo woo woo.
I feel speed but with a taste of weed, can you taste it too ?
Co me running on slow motion, I'm talking to you you you.
